EVENING BULLETIN

3:30 EDITION

Predominates As a News Disseminator

If you notice, the majority of Honolulu merchants, who know where, how and when to advertise, use the EVENING BULLETIN. Their selection of this paper is based upon its usefulness to them in getting buyers and steady customers.

ESTABLISHED 1882. No. 5218.

12 PAGES.—HONOLULU, TERRITORY OF HAWAII, MONDAY, APRIL 22, 1912.—12 PAGES.

PRICE 5 CENTS.

SUPPRESSING WRECK NEWS

HIGH OFFICIAL ADMITS HE ISSUED REASSURANCES THAT WERE BASELESS AND TRIED TO MINIMIZE GRAVITY OF CASE

HOSPITAL FOR ARMY \$250,000

Two hundred and fifty thousand dollars are to be spent on the Army base hospital for the Department of Hawaii and that hospital is to be placed on the Fort Shafter military reservation, according to news received here from Washington.

The news comes in private communications, and this morning the Army authorities said they had nothing definite. It was believed that Captain Edwards, constructing quartermaster, had confirmatory advices, but he also stated that he does not know just what is being done.

Colonel Elbert, chief medical officer of the Western Division, who was here some months ago, made an inspection of various sites for the hospital and was favorably inclined to Fort Shafter, it was said on good authority. The latest news from Washington is that the site is to be near the fertilizer works. The plans and the preliminaries for the appropriation are believed to be well under way.

With \$250,000 spent on it the Army base hospital would be one of the model structures of its kind in military circles, and would be ample for any probable needs of the Department of Hawaii.

TO ADJUDICATE KAIMUKI RIGHTS

Tax Assessor Charles T. Wilder will go out tomorrow to Kaimuki and interview rate property-owners as to the assessments placed on their property. The only thing that is likely to save him, he admits, is the fact that he agrees that some of the lots have been assessed too high.

"It is almost impossible to follow the trend of events at Kaimuki," he stated this morning. "The lots are divided and subdivided so rapidly that it is impossible to keep the maps up with the pace. I think that there are undoubtedly a number of the lots that have been rated too high and I will look into the matter."

The Kaimukites are taking precautions for the next assessment, and have proposed that one man from each district of the Red Hills City shall accompany the Assessor on his rounds when the proper time comes again. Wilder stated this morning that this was a very good idea and that he would be very glad to comply with the request.

SILVA THINKS LABOR SUPPLY NOW ASSURED

M. A. Silva, agent of the Territorial board of immigration, who made the trip from Europe aboard the immigrant ship Harpagon, was able to get out of quarantine for the first time yesterday.

Silva remained at Quarantine Island along with the immigrants after arriving here, the remainder of the immigrants having done all that he could do for them. The Harpagon has moved over to Channel wharf and the quarantined people are at quarantine here.

Silva told the Bulletin yesterday that he will be a day or two before

immigration station that Hawaii can procure in Europe all the labor that local plantations need.

We had hundreds more anxious to come on this trip of the Harpagon," he said. "The difficulty is not in booking them and getting their consent to come, but in arranging for their embarkation. Many, of course, come from a long distance from the port where the steamer touches and it is hard to arrange for them to take ship at once."

"But, in general, they are anxious to come to Hawaii. There is no opposition to our work that will prevent us from getting plenty to supply the present demand for labor."

There are 362 out of the 1456 arrivals now at the Territorial station of single men, on account of the cases of measles and other light diseases. The remainder of the immigrants have done all that he could do for them. The Harpagon has moved over to Channel wharf and the quarantined people are at quarantine here.

SPRAY MAY DECIDE FRUIT FLY BATTLE

From South Africa comes news of a successful campaign against the Mediterranean fruit fly and of methods of fighting it there which may help Hawaii to solve the problem of keeping down a pest that now threatens the fruits of all the islands.

A spray has been used with a high degree of effectiveness, and its results are said to have been confirmed by Judge Henry E. Cooper in the use of a similar spray, that of lead arsenate.

Judge Cooper, who has been spraying this year, reduced his loss to 10 per cent, according to report, which is a great step towards success.

Attorney General Alexander Ginday Jr. has received a letter from his nephew, Alexander Lindsay Jr., H. at present studying at the Oregon Agricultural College, in which he quotes from the college paper, "The article reads as follows:

KAPAHULU CLUB WILL ASK W. G. IRWIN FOR NEW ROAD

William G. Irwin, erstwhile millionaire and resident of Honolulu and San Francisco when he is not whaling around in Europe, does not know what he is getting into by coming once to this city. Just to shot the balance of Honolulu that it is strictly and technically right up to the minute, the Kapahulu Improvement Club, at a meeting held yesterday afternoon at the residence of J. A. Borstfeld, elected a committee to wait on Mr. Irwin when he arrives "home" and urge him to donate to the City and County of Honolulu and incidentally to the United States of America, a strip of land forty feet wide and about 200 feet long.

M'CANDLESS MEN NOW OUT TO GET SCALPS OF JARRETT AND ROSE

Sheriff William P. Jarrett and Deputy Sheriff Charles Rose are slated for the axe by the McCandless Democrats at the fall election, according to open announcement by some of the followers of Link. McCandless himself refuses either to confirm or deny the statement that he and his followers are out after the scalps of Jarrett and Rose. He says it's up to the convention.

This is exactly what McCandless said before the Territorial convention last week when he own candidate for Delegate was the issue. But he had carefully organized his forces and seen to it that the convention did as he wished, and that's the course expected of him in the opposition to Jarrett and Rose.

The McCandless forces' attack on the Sheriff's office is the result of Jarrett and Rose supporting McCarthy for Delegate against Link. Jarrett

was open in his fight and Rose was not far behind.

Weeks before the convention some of McCandless' strongest lieutenants declared that Jarrett was doomed, and now that the convention is over they insist that McCandless oppose Jarrett and Rose. Link's support is largely made up of ex-policemen and others who are sore on the Sheriff's office and demand a change, and having helped nominate McCandless they demand that the price of their support — part of the price, anyway, — be the defeat of "Big Bill" and his deputy.

"It's too early to say what will be done," insisted McCandless this morning when the question was put squarely up to him by the Bulletin. "Of course, Jarrett and Rose opposed my nomination. They had a perfect right to do so. Well, we'll see what the convention does."

Barbershop shaving on Sunday is strictly prohibited by law, but T. Kaneshiro, Japanese barber, who wanted to make a few dollars on Sunday, thought he could bamboozle the police by permitting none of his customers to have their faces cleaned up preparatory to going to church yesterday, it is alleged. No sooner had he done so, however, than Kaneshiro was arrested by the police, and this morning he was arrested by Police Officer Chin. The defendant said the police caused him "too much pilikia."

Kaneshiro was released on bail pending the hearing of his case by Judge Monksarad tomorrow morning.
